

**NEW  
PROGRAM**

# MEDIA, ARTS, & ENTERTAINMENT

With the rise of film, television and video production in New England, Quincy College has announced the launch of its new Media, Arts, and Entertainment program for January 2010. This dynamic program will provide students with skills in both the theory and practical application of media arts production and include a broad spectrum of courses, from project development to computer animation. Tailored to fit individual interests and career goals, the Certificate and Associate Degree programs prepare students for promising careers in film production, video editing, animation and more.

## Some of the current and future courses offered in the new Media, Arts, and Entertainment Program include:

- Final Cut Pro
- Animation
- Website Design
- Etiquette on the Set
- Desktop Publishing
- History of Television
- Photography
- History of Film
- Introduction to Video
- Media in Social Perspective
- Project Development
- Ethics in Entertainment
- Video Editing
- Capstone Project/Internship

**"It's an explosion of work and the future is incredibly bright."**

-Dona Sommers, Executive Director of the New England Office of the American Federation of Television and Radio Artists and the Screen Actors Guild, (Boston Herald, November 22, 2009)

**"In 2008, 13 major film projects were shot in Massachusetts totaling \$452 million."**

-Massachusetts Film Bureau
