Plymouth's Hometown College Lobster

Quincy College works with local Plymouth artists to create a collegiate Lobster as part of the Plymouth Chamber of Commerce's Lobster Crawl

Social Media Release (140 Characters): Quincy College works w. @KrisMariePhotos of Treehouse Studios creating #Plymouth Hometown College Lobster as part of @PACC1620 #Lobstah Crawl

Plymouth, MA (8/26/16) - Cordage, the Quincy College Lobster, will be on display at Nelson Park for two years as part of the Plymouth Chamber of Commerce's upcoming Lobster Crawl. The lobster affectionately dubbed Cordage is named after the Quincy College Plymouth's campus which is located on the site of the old Cordage Rope Factory at 36 Cordage Park in Plymouth.

Cordage, the Quincy College Lobster, was designed by artists at Kristin Hughes-Craig and E. Gene Chambers of TreeHouse Studios, a local art gallery and photography studio in downtown Plymouth. Mrs. Hughes-Craig is internationally admired for her remarkably vibrant New England landscape photography and nature-themed portraiture.

The design for Cordage, the lobster represents of Quincy College's close connection with the Plymouth community. Cordage's carapace is covered in photographs, some taken by local Plymouth artists Mrs. Hughes-Craig, E. Gene Chambers and other photos of Quincy College students, staff, and faculty.

"When we brainstormed about the overall design of Cordage, we kept coming back to this sentiment of we are Plymouth. We have a saying around the campus: 'Our Name May Say Quincy, but we are America's Hometown College,'" says Laura Buckley, Assistant Campus Dean, Quincy College Plymouth Campus. "With this credo in mind, we worked alongside TreeHouse Studios to integrate our mission statement, photos of the Plymouth community which many of our staff, students and faculty call home, and photos of our campus," Buckley elaborates.

The Plymouth Lobster Crawl is a major public arts event that is on display throughout the waterfront, downtown and Plymouth Community hosted by the Plymouth Chamber of Commerce. The Lobster Crawl will feature 29 unique structures each measuring five feet tall. The fiberglass structures are sponsored by local businesses and organizations, each custom designed and hand painted by local artists. The Quincy College lobster will be on display at Nelson Park for 2 years and will then be placed on the Quincy College campus at 36 Cordage Park, Plymouth.

"We at TreeHouse Studios are honored and thrilled to be a part of this amazing Plymouth community event," Mrs. Hughes-Craig says. "To have been paired with sponsor Quincy College made for a perfect symbiotic relationship and I must say ultimately worth every hour that I and particularly E. Gene Chambers put into the project. Kudos to Cordage!"
