

Professional Licensure and Certification Disclosure

The chart below reflects the College's determinations for its programs that may lead to professional licensure or certification. Licensing and certification requirements vary by state. Although Quincy College has sought information from other jurisdictions regarding licensure requirements, these requirements are subject to change. If you intend to seek licensure outside of Massachusetts, the College recommends that you contact the appropriate state licensing agency to obtain the most up-to-date information.

Students who relocate to another state during their enrollment may or may not satisfy the eligibility criteria to obtain a professional license or certification in that state.

It is the student's responsibility to check with each state for current information when it is time to apply for such licensure or certification.

Degree Program	Program Meets Educational Components of Licensure Certification Requirements	Program Does Not Meet Educational Components of Licensure Certification Requirements	Determination Has Not Been Made	Additional Information <i>For Further inquiry about specific state requirements, please view the links below.</i>
