

EARLY CHILDHOOD EDUCATION

Associate of Science Degree

Program Description

Increasingly, American families find the need for safe, certified childcare for children. Essential to the success of any childcare operation is the availability of qualified professionals. The Quincy College program in Early Childhood Education is designed to assist students in meeting requirements of the Department of Early Education and Care (EEC) and the needs of employers, as well as prepare students who wish to pursue a Bachelor's of Science Degree in Early Childhood Education. Students receive a broad based exposure to Early Childhood Education.

Program Outcomes

Upon successful completion of this program, students will be able to:

- Describe young children's diverse characteristics and their educational and holistic needs, from birth through age eight.
- Evaluate the goals, benefits, and uses of assessment and use systematic observation, documentation and other effective assessment strategies to positively influence the development of all children.
- Design, implement and evaluate developmentally appropriate curriculum that positively influence each child's individual development and learning, taking into account age, characteristics, and culture.
- Use social, economic, and cultural issues facing schools and families to create respectful, reciprocal relationships with families and communities.
- Integrate knowledge from a variety of sources including ethical guidelines and professional standards toward becoming reflective, life-long learners within the education community.
- Apply respectful approaches to provide young children with skills to self-direct/self-regulate and to resolve conflicts/challenges.

Please Note:

All ECE and EDU students must complete a CORI and a SORI (including finger printing), prior to their acceptance into the ECE/EDU program. It is the responsibility of the student to complete this so that they will be able to do field observations during the program. Most local police stations will perform SORIs/fingerprinting for a fee. CORIs will be performed at the site chosen to complete your observation/field experience hours.

Additional Information

1. Indicates course requires the completion of a prerequisite.
2. Students must complete the following college level courses with a grade of "C" (73%) or higher: EDU 101, EDU 105, EDU 217, PSY 103, and EDU 222 and receive written permission from the faculty who coordinate the Early Childhood Program to be eligible for a field placement; or permission from the Dean of Liberal Arts and Professional Programs.
3. Students who plan to complete a field placement must contact the faculty coordinator by December for a Spring semester placement.
4. Admission to the program does not guarantee a field placement. An overall GPA of 2.0, or higher, and proof of child and adult CPR and First Aid is required in order to be placed in a field experience.

Note: All classes are offered in the fall and the spring unless otherwise designated:

F=Class is only offered in the Fall

S=Class is only offered in the Spring

General Education Requirements – see p. 98	Credits
25 credits total	
Computer Science	3 credits
ENG 101 English Composition I	3 credits
ENG 102 English Composition II ¹	3 credits
History/Government	3 credits
IDS 167 First Year Seminar	3 credits
Math	3 credits
Natural Science w/ Lab	4 credits
PSY 101 General Psychology	3 credits

Program Requirements – 36 credits total	Credits
EDU 101 Intro to Educational Studies ² (F)	3 credits
PSY 103 Child Development ² (F)	3 credits
EDU 105 Curriculum for Young Children ² (S)	3 credits
