QUINCY COLLEGE NURSING

Academic Division of Nursing Mission Statement:

The mission of the Academic Division of Nursing is congruent with the mission, values, and goals of Quincy College. The mission of the Nursing Programs are to prepare each graduate for success on the National Council Licensure Examination (NCLEX®) to ensure our graduates safely practice nursing with professional competence and care holistically for individuals from culturally diverse backgrounds. The graduate will function as an integral member of the interprofessional team with a commitment to educational advancement and lifelong learning.

Associate in Science Degree in Nursing || Full -Time, 2-Year Program

The Associate in Science Degree nurse applies critical thinking skills working with an interdisciplinary team for the development, implementation, evaluation, and modification of nursing care for individuals, families, and communities. This nurse functions in a competent, ethical, and safe manner within the established Standards of Nursing Practice. The Associate degree nurse manages resources for care delivery, delegates and supervises licensed and unlicensed assistive personnel. The graduate has a responsibility to be a part of the professional body of nursing. In that regard, the associate degree nurse accepts their responsibility to participate in public policy dialogue as it affects the changing contemporary health care systems and advocates for their client and the profession as well as promotes health in a complex health care environment.

Certificate of Completion in Practical Nursing || Full-Time, 10 Month (40 Week) Certificate Program

The Licensed Practical Nurse (LPN) is a valued member of the interprofessional healthcare team, providing competent, evidence-based nursing care in a variety of health care settings. The Licensed Practical Nurse is instrumental in meeting the healthcare needs of older adults and other diverse groups. Within their scope of practice, LPNs utilize the nursing process as the framework for delivering patient-centered nursing care. Standards of Practice and The Code of Ethics for the LPN provide guidelines for professional practice.

Organizing Framework

The organizing framework for the Quincy College Nursing Programs are focused on what the new graduate needs to know and do to provide safe care in the current healthcare environment as a Registered Nurse or Practical Nurse. Our aim is to inspire confident and competent beginning practitioners of nursing. The organizing framework draws heavily on the work of the Massachusetts Nurse of the Future Nursing Core Competencies (NOFNCC), and ties together all parts of the Nursing curriculum and is aligned with the current NCLEX® test plan.
