

Region 21 NJCAA National Junior College Athletic Association

The mission of the Quincy College Athletic program is to provide our student athletes with the opportunity to enhance their overall educational experience through participation in intercollegiate or intramural athletics.

It is our belief that student athletes gain worthwhile experience in teamwork and leadership, while also developing character and integrity.

The Athletic Department's goal is that each student athlete will be dedicated to success both in the classroom and on the playing fields.

Finally, student athletes will act morally and socially responsible in their role as a representative of the Quincy College community.

Jack Raymer
