

ACCOUNTING

Associate in Science Degree

Program Description

The Accounting Program is a major that is designed to prepare students for entry-level accounting positions, or to provide further advancement for those already employed in the Accounting profession. The program design includes the general education curriculum, a general business core, skills courses, and courses specific to the Accounting profession.

Program Outcomes

At the completion of this program, the student should be able to:

- Communicate effectively about accounting information.
- Perform basic mathematical calculations in accounting, finance, and general business.
- Discuss the role of accounting managers.
- Apply the fundamental principles and methods of financial accounting in analyzing business transactions.
- Identify the impact of business transactions upon financial statements.
- Use accounting information to support business decision making.
- Apply principles of cost accounting to analyze a firm's costs.
- Discuss Generally Accepted Accounting Principles (GAAP).
- Identify the impact micro and macroeconomic variables have upon businesses and their financial statements.
- Perform computerized financial analysis.
- Discuss the ethical issues faced by accounting majors.
