

ACCOUNTING

Certificate

Program Description

The Accounting Certificate is intended for those students who already have a certificate, associate's degree, or bachelor's degree in another discipline, as well as students without a degree who are already working in the accounting profession. It is also intended for those students with an accounting education from another country who wish to become proficient in the United States' accounting standards and practices.

Program Outcomes

At the completion of this program, the student should be able to:

- Communicate effectively about accounting information.
- Perform basic mathematical calculations in accounting and finance.
- Apply the fundamental principles and methods of financial accounting in analyzing business transactions.
- Identify the impact of business transactions upon financial statements.
- Use accounting information to support business decision making.
- Apply principles of cost accounting to analyze a firm's costs.
- Discuss Generally Accepted Accounting Principles (GAAP).
